DESIGN
FROM CONCEPT TO DELIVERY

To create unforgettable events

Our experienced team has the determination, originality and imagination to create unforgettable events.

Our team know how to engage the power of imagination to bring your brand to life. Pulling together the technical and creative elements of show they create stage sets and room scenery, event graphics, multimedia, live screen content and video production.

Our multimedia designers and set designers work with you from concept to design and delivery; taking you through visualisations by sketches, 3D design techniques, walk-through animation and CAD elevations.

We use the latest High Definition technology and know how to bring applause to even the simplest of presentations without distracting from your message.

DESIGN

SET DESIGN • GRAPHICS • SCREEN CONTENT • VIDEO PRODUCTION

Stunning sets and powerful design for impact.

We make lasting impressions with our creative concepts; blending technology and content with conviction and flair.

design

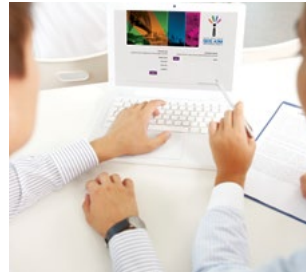

Set Design

From concept through to design our team can visualise your ideas and turn them into reality. Room scenery, exhibition stands, walk through animation and CAD elevations make your event stand out.

Graphics

Event logos, invitations, menus, lanyards, banners, signage and flyers to communicate your event messages.

Screen Content

From simple PowerPoint and Keynote designs that reflect brand and message, to fully animated multi-screen motion graphic designs that provide visual stimulation and allow for full interaction with the messaging of the event.

Video Production

Video content, filming, editing, webcasting and post production to extend your event experience.

OUR DESIGN PROFESSIONALS
WE LIVE AND BREATHE EVENT DESIGN

Myles Thompson
Lighting Designer

Myles studied theatre design at St Martin's college in London. His lighting and installation designs have been seen at such events as the BAFTA awards, the radio times and the Ministry of Sound. As an art director he has worked on the production and design of music videos and commercials with projects including Victoria Beckham to Michael Parkinson. Myles has recently moved into the digital world to pursue his interest in 3D modelling and design.

Cameron Gage
Digital Media Designer

Cameron is a fresh, young and energetic designer who is keen to make an impact. Cameron possesses a versatile skill set which allows him to integrate digital design concepts into any event type. His architectural background provides a passion for and awareness of the end-user experience as well as a unique and strongly founded holistic view of events. Cameron is highly experienced in graphic design, web design and motion graphics. He adheres to his love for photography, design and all things visual.

Rocco Anzellotti
Lighting Designer

Lighting Designer Rocco Anzellotti has been part of the Staging Connections team for almost ten years. With a wealth of knowledge from his work in major concert lighting, Rocco has a flair for transforming any event space into a unique experience. He is also one of our most experienced Production Managers, renowned for his skill in organising and running large events. Some of his major events include events for Amway Singapore 2006, Amway Sydney 2005, Colonial National Roadshows. Microsoft TechEd, NYE celebrations Star City and Telstra Extreme events.

From concept to completion this complex event was delivered seamlessly by a team of true professionals.

Kelli Martin, Marketing Manager – Brand & Communication, Recall.
