Screen content

From simple PowerPoint and Keynote designs that reflect brand and message, to fully animated multi-screen motion graphic designs that provide visual stimulation and allow for full interaction with the messaging of the event.

DIGITAL SERVICES

WEBCASTING • IStageEvent • EVENT WEBSITES

Technology to excite the mind.

We are on trend with innovative new techniques and all that makes up the vast digital world.

We have fully integrated event solutions that harness the power of new technology to provide an evolutionary event experience.

Webcasting

Seamless integration of live or on-demand webcasting can let others share in your event experience. We boast an expert, specialised webcasting team dedicated to extending the reach of your communication.

IStageEvent

As Australia's first integrated event services company to introduce the innovative phone app 'IStageEvent', we can provide your guests with seamless communication before, during and after the event. Have accurate, up-to-date information in the palm of your hand across multiple smartphone platforms delivering a richer experience for delegates and a greater return on investment for organisers.

Event Websites

Customised information portals can engage guests and enhance the communication between staff. It enables information to be passed onto attendees regarding event details, speakers, hotel information and floor plans.

The webinar initiative significantly expanded the reach of our message with participants logging in from around the country and international locations such as China.
