

IT'S NOT JUST AN EVENT. IT'S A STAGING CONNECTIONS EVENT.

TECHNICAL DIRECTOR

In charge of producing extraordinary events in Sydney, NSW

If you walk the line between tech geek and commercially savvy production manager; enjoy seeing your work delight your audience; and want to join a community of talented event enthusiasts who share the goal of creating unforgettable experiences, this might just be the role for you. You'll be all-over the technical stuff. With steely knowledge of audio, lighting, projection, rigging, OHS.

You're happy to put your tech-geek hat on when it's needed; but you're just as comfortable talking to both clients and event managers regarding production complexities. You're a great manager of crew and staging teams. You'll help them become an event technology guru just like you and deliver the technical aspects of events seamlessly, professionally and most importantly, safely.

IN A NUTSHELL

- Design and manage all technical aspects of brand-defining events
- Direct all technical aspects of events from brief to bump-out
- Produce ground-braking, thought-provoking technical experiences
- Manage, motivate and inspire event crew
- Contribute to winning event proposals that will nail the client brief
- Ensure budgets don't blow-out
- Evaluate labour, equipment and transport requirements
- Design floor plans and schematics
- Attend client meetings and briefings
- Research new technology and maintain an acute knowledge of current technology
- Provide technical advice and cost estimates to sales teams
- Ensures a crew with the right skills is rostered
- Define the right AV equipment and make sure it's delivered
- Ensure every event is delivered safely and embrace to our stringent standards

WHY YOU'LL LOVE US

- You'll be in charge of the technical design and production of amazing events.
- You'll be a leader in a genuinely cool company.
- You'll be an integral part to the production team and as such, will be in a position to showcase your passion for our events, and demonstrate your undying passion for event technology that delight your audience.

THE TECHNICAL BIT

You'll need to be an expert with:

- Microsoft Office suite including Keynote
- Adobe Creative Suite knowledge
- Vectorworks, AutoCAD or TurboCAD
- Video/Audio editing knowledge
- Proficient in both Mac and PC.
